FINANCIAL DISCUSSION IN THE SEN ATE TO BEGIN OVER.

Peffer's Resolution to Appoint a Committee of Five Senators to Investigate the Hond Issues of the Present Administra tion is Reached on the Calendar and All Efforts to Postpone its Consideration Prove Useless-Appropriation for a Public Building at Indianapolis-United States and Arkansas Settle Up.

Washington, March 30 .- The senate is to have a revival of financial and bond discussion as a result of an animated debate shortly before the session closed today. Mr. Peffer's resolution for the appointment of a special committee of five senators to investigate recent bond issues had been relegated to the calendar, owing to the opposition of Mr. Hill, but it was reached in the regular order today. Again Mr. conclive or car, or to shoot at any Hill sought to have the resolution go over but he was met by energetic pro-tesis, not only from Mr. Peffer, but also from Mr. Wolcott and Mr. Teller. The latter gave notice that further delays would be resisted and Mr. Peffer followed with notice that he would move tomorrow to proceed with his bond inquiry resolution, as soon as Mr. George concludes a speech on the Du-pont case. This promises to bring a test vote unless dilatory tactics postone the measure.

Among the bills passed today were those appropriating \$2,000,000 for a pub-lic building at Indianapolis, Ind., and settling the long pending accounts be-tween the United States and Arkansas. Mr. Mitchell of Oregon gave notice that he would go on with the Dupont

> SUNDRY CIVIL APPROPRIATIONS Mr. Sayers Accuses Mr. Cannon of Fals-Pretenses and Sharp Tricks.

Washington, March 30.—The house today took up the consideration of the sundry civil appropriation bill and disthe appropriation committee, and his predecessor, Mr. Sayers of Texas, interchanged opinions as to present and past appropriations, Mr. Cannon appropriations. Mr. Cannon in the course of his remarks expressed the opinion that the appropriations for this session could not fall below \$506,000,000. The action of the committee in appropriating for contract work only March, 1897, was attacked, but Mr. Canon justified this on the ground that the same had been done last year in case of the fortifications bill. But amendments were added to the bill today. Eight amendments to increase the from \$1,600 to \$1,800 were adopted.

Mr. Cannon said that he did not think he appropriations for this session, not taking into consideration authorizations for naval and river and harbor work, would fall below \$506,000,000. The public service, in his opinion, could not be provided for for two years for less than a billion dollars. Now, however, the government was borrowing money to pay current expenses. In view of this fact, he appealed to the house to keep down appropriations and be content with caring for the public as it existed and not enter upon any new ex-penditures while this borrowing was go-

Mr. Sayers (Dem., Texas), ex-chairman of appropriations, replied at some length to Mr. Cannon. In a general way he indorsed the items in the bill, but he lared that it was a false pretense on its face. It purported to be a bill pro-viding for the sundry civil expenses for the fiscal year ending June 30, 1897, whereas it was admitted that in all contract work the appropriations did not extend beyond March 3, 1897. He referred to the adroitness with which approriations aggregating a million dellars had been inserted into the deficiency bill which properly belong on this bill.
